## HOW FAR TO THE LEFT WILL OUR NATION GO?

If you have been keeping up with the news then you know our president is putting a Transgender up for nominee to be a part of our country's top health official.

Her name now is Rachel Levine born a man but transitioned and began identifying as a woman in 2011.

She was named in 2018 Pennsylvania Secretary of Health. Our current president has also chosen a transgender veteran to be part of the transition team at the Department of Defense.

Of course this opens it up for transgender person to be in the military and already do have some.

When we pick people to serve our country that have no morals in regards to things that are right and wrong we are going down the wrong road.

Senator Rand Paul, during a Senate confirmation hearing was discussing gender mutilation.

He said according to the WHO, (World Health Organization) gender mutilation is recognized internationally as a violation of human rights.

Today in American culture is now

normalizing the idea that minors can be given hormones to prevent the biological development of their secondary sexual characteristics.

He ask Dr. Rachel Levine, Do you believe that minors are capable of making such a life-changing decision as changing one's sex?" Levine gave no answer.

Here is what she said: "Thank you for your interest in this question. Transgender medicine is a very complex and nuanced field," If confirmed I will look forward to working with you and your office."

Senator Paul ask again and got the same answer. They are talking about underage children making such changes.

They not only agree with the above but believe and sanction same sex marriage and abortion.

Why am I writing this? The reason is that some citizens are electing liberals who have no concern for what is right and wrong.

Our country is going down rather than up.

RH
